General advice

- Students and teachers should consider how to focus their revision of other parts of the specification, for example to review whether other topics may provide knowledge which helps your understanding in relation to the areas being tested in 2022.
- Students should only refer to the advance information for components for which they intend to sit examinations, for example for specifications with optional papers.
- It is advised that teaching and learning should still cover the entire subject content in the specification. The government believes it is important that students cover the curriculum as fully as possible, so that they are as well prepared as possible for progression to the next stage of their education.

A link to the Joint Council for Qualifications guidance document on advance information can be found on the Joint Council for Qualifications website or [here](#).

Advance Information

Subject specific section

- For our Pearson Edexcel GCSE Business, for both the component 01 and the component 02 examination papers, questions within these papers will sample content only from the areas specified in this notice.
- Teachers may choose to focus their teaching and revision on the content set out in this document, but should aim where possible to do so only once the full content of the course has been delivered.
- Students will not be disadvantaged if solely using the areas indicated in this document. Students' responses to individual questions may draw upon other areas of specification content where relevant, and credit will be given for this where appropriate. Students can draw upon knowledge, skills and understanding from across the specification when responding to synoptic questions, and again credit will be given where this occurs beyond the content listed.
- The specification content is presented in numerical order as set out in the specification, and not reflecting the question order of the examination papers. Some questions may be answerable using more than one area of specified content. Any content listed may appear in the examination papers in any question style, from MCQs (multiple choice questions) through to higher tariff extended response questions.
- Quantitative skills relevant to each component are included in this information.

Paper 1 (1BS0/01)

Specification content (inclusive of pages 8–12 of the specification):
